Our Aim

We have put in tremendous effort to create multiple sessions which are principally designed to enhance the development and upgrading of clinical skills of modern dermatologists. Today we will be dissecting our topic “The Neck, Derma & Aesthetic”. Cosmetology has become a fundamental part of modern dermatology. It is even more interesting when we explore all the aspects of the perfect Neck.

Future Agenda

We will be delivering a meeting every two months that will explore different aspects of dermatological interest. Cosmetic dermatology will be playing a leading role in the scientific programs to satisfy the needs for continual upgrading of cosmetic knowledge and skills.

We surely welcome your active participation and suggestions to continuously work on any areas of improvement.
