

1st Sharm Derma Act Conference

December 30th, Friday 2016

Royal Maxim
Palace Kempinski

CAIRO

Welcome Message

Dear Professors and Colleagues,

We are delighted and honored to host the very first Sharm Derma Act Meeting. We wish to extend a warm welcome to our elite professors and respected colleagues who are honoring us with their presence today.

About Us: We are a new born organization of passionate dermatologists who have come together from different esteemed institutes and affiliations. With unity comes power, and enthusiasm delivers success, we are here to set a new benchmark in comprehensive teaching and delivering fresh lectures, debates and case presentations with original unorthodox ideas.

Our Aim: We have put in tremendous effort to create multiple sessions which are principally designed to enhance the development and upgrading of clinical skills of modern dermatologists. Today we will be dissecting our topic "Male in Aesthetic Dermatology". Cosmetology has become a fundamental part of modern dermatology. It is even more interesting when we explore the demands of male patients in this rapidly expanding cosmetic arena.

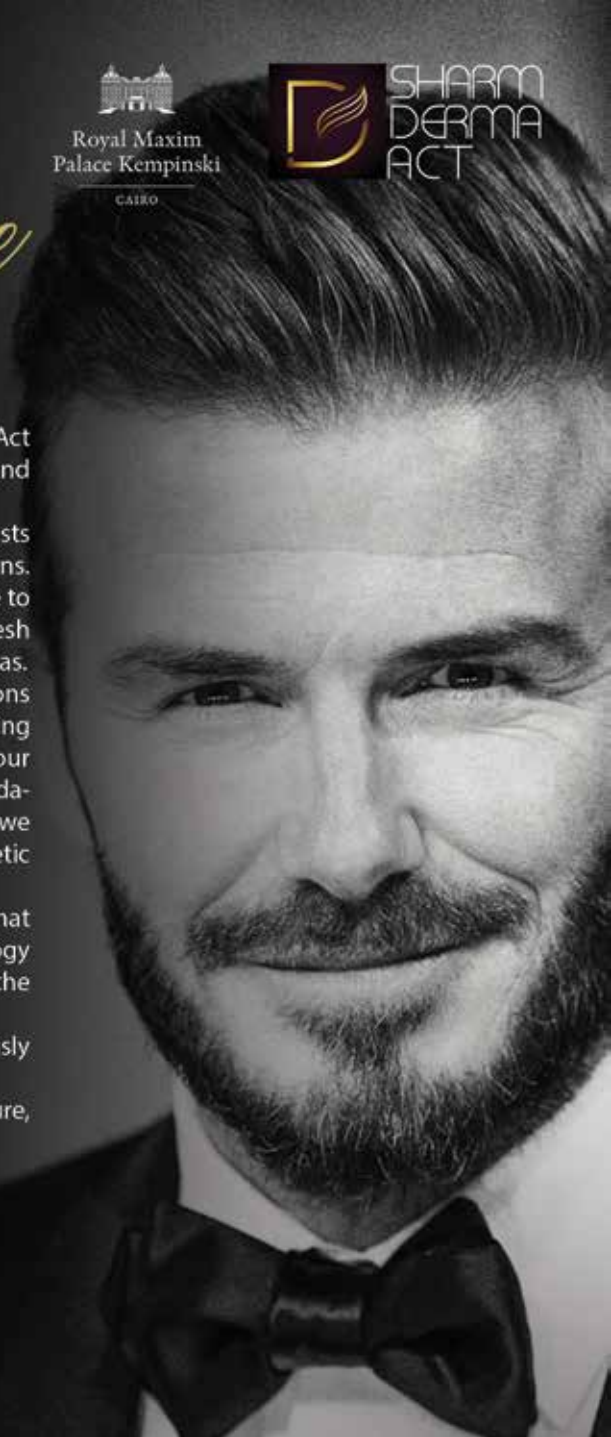

Future Agenda: We will be delivering a meeting every two months that will explore different aspects of dermatological interest. Cosmetic dermatology will be playing a leading role in the scientific programs to satisfy the needs for continual upgrading of cosmetic knowledge and skills.

We surely welcome your active participation and suggestions to continuously work on any areas of improvement.

Finally, we hope that you find today an exciting dermatological adventure, full of scientific appeal in the land of clinical paradise.

Thank You

Sharm Derma Act.
