ABDEL FATTAH EL-SISI

**THE FIRST
INTERNATIONAL
RCPCH
CONFERENCE IN
MENA REGION**

at Intercontinental City Stars
from 29th to 31st of January, 2019

**EARLY
CHILDHOOD
DEVELOPMENT**

First Announcement

Welcome Message

We are very excited and pleased to announce holding The First International Royal College of Paediatrics and Childhood (RCPCH) Conference in MENA bringing to the region an exceptional opportunity to learn about the most up to date issues related to Early Childhood Health and Development which we believe is the key to a brilliant future led by healthier, secured and well cared-for children. This will help to achieve the Sustainable Millennium Development Goals (SMDG) and Egypt's strategic goals for 2030.

The Conference presents a unified platform for academia, industry, civil society organizations, entrepreneurs and the private sector, in a collaborative effort, to generate better child health outcomes and create improved access to health care for infants, children and young people across the region.

Taking place in Cairo, on January 29th to 31st 2019, this will be an energizing three days full of Sessions that will take different formats; panel discussions, lectures, Workshops and teaching/training courses to run parallel as well as around the conference time to satisfy all your needs.

Book your place to enjoy the first Royal College of Paediatrics and Child Health conference in the MENA region - one of the most comprehensive and exciting events on Early Childhood Development ever planned.

We look forward to welcoming you to Egypt in January 2019

ABOUT OUR DREAM

The initiative is the societal arm of the Egyptian Members' Association of the Royal College of Pediatrics and Child Health, it was launched on June 2015 with a clear vision of optimizing Early Childhood Health and Development.

We work restlessly to optimize the community child healthcare services according to the latest international standards through an innovative approach via task shifting to create new cadres namely the health and the nutritional Counselors. Our core missions are focused on the promotion of spacing of successive pregnancies, reduction of perinatal- late neonatal mortality and morbidity, the reduction of physical and mental handicaps and the promotion of their societal inclusion.

The scope of work includes currently 11 different governorates where the activities vary between educational and awareness ones, the initiative run widely reaching awareness campaigns electronically and on ground as well as offering some technologically advanced services like Tele- Medicine, Tele-Awareness and Tele-Education.

The initiative cooperates with three Egyptian ministries (ministry of communication, ministry of health and ministry of Social Solidarity) Besides a Number of educational entities like the Ain Shams University, Mansoura University and Alexandria University in addition to affiliating with some local and International NGOs to implement sustainable and highly effective projects.
