Welcome Message

Dear Colleagues

It is our pleasure to announce for the coming 15th annual conference of the Vascular Society of Egypt (VSE).

On behalf of the conference board, I'm honored to invite you all to this event that will be held on 20-23 February 2019.

Throughout the last 14 years, this meeting has explored almost all frontiers of vascular practice, discussing year by year the latest updates and innovations and how these will be reflected on our daily practice.

This year, the theme of our meeting will focus on emergency vascular interventions with trauma management as a core part of it.

All controversies, updates and guidelines of this territory will be discussed and spotlighted by distinguished national and international guest speakers to put our young generations on the right track, through state of the art lectures, panel discussions, master classes and hands on workshops.

We look forward to welcoming you at this hopefully fruitful gathering.
