20th March 2019, Psychiatry, Neurology and Neurosurgery Center - Tanta
21st - 22nd March 2019, InterContinental City Stars Hotel, Cairo

Welcome Message

We are honored to welcome you to the 1st International Annual Psychiatry Congress, of Tanta Neuropsychiatry Department. I would like to extend a heart felt invitation to fellow psychiatrist to take part in Annual Psychiatry Congress of Tanta Neuropsychiatry Department which will be held at Intercontinental Cairo City Stars Hotel, from 21th - 22th March 2019, which will be an international one in corporation with different eminent psychiatrists from all over the world. The theme of the congress will be about The Present and Future of Precision Medicine in Psychiatry. Precision medicine is a concept which is recently gaining momentum in all branches of medicine.

In particular in psychiatry it is greatly needed given the huge societal costs of psychiatric disorders and, mainly, given the long time needed to observe benefit from treatments and the response variability. It will be an excellent gathering for the attendees to exchange scientific information and knowledge on the latest advances in psychiatry.

The congress organizing committee eagerly waits for a well organized scientific program and elaborate social events. I believe that you will have a very rewarding experience and return with fond memories that will last a lifetime.

Prof. Mai Eissa
