Intercontinental City Stars Cairo, Egypt

International Psychiatry Congress of Tanta Neuropsychiatry Department

## Welcome Message

We are honored to welcome you to the Second International Annual Psychiatry Congress, of Tanta Neuropsychiatry Department. I would like to extend a heart felt invitation to fellow psychiatrist to take part in Annual Psychiatry Congress of Tanta Neuropsychiatry Department which will be held at Intercontinental City Stars Cairo, Egypt, from 6<sup>th</sup> - 7<sup>th</sup> August, 2020, Which will be an international one in corporation with different eminent psychiatrists from all over the world. The theme of the congress will be about eMental Health. The use of technology such as computers, tablets, and smartphones to improve access to and the delivery of mental health care (eMental Health care) is growing worldwide. However, despite the rapidly expanding evidence base demonstrating the efficacy of eMental Health care, its implementation in clinical practice and health care systems remains fragmented. Individuals with mental health conditions are increasingly turning to the Internet for information, advice, support, and to share their experiences. They are increasingly expect eMental Health options as part of their care and report high levels of technology device use in their everyday lives. It will be an excellent gathering for the attendees to exchange scientific information and knowledge on the latest advances in psychiatry. The congress organizing committee eagerly waits for a well organized scientific program and elaborate social events. I believe that you will have a very rewarding experience and return with fond memories that will last a lifetime.

**Prof. Mai Eissa**

*Mai Eissa*

President of the conference
