Welcome Message

Dear colleagues,

On behalf of the meeting board, the National Heart Institute, Cairo, we are honored to invite you to the **9th annual COMBATMI/ PCI/ Acute Cardiology Course**; that is held at Cairo Marriott Hotel overlooking the River Nile on March 25 -26th, 2015.

The course addresses the latest strategies, pharmacology and interventions in heart attacks, ischemic heart disease and acute cardiac situations and highlights the latest practice and education in ever growing cardiac interventions with case based discussion. The meeting is **internationally** endorsed and in collaboration with the EglC(Egyptian Working Group of Interventional Cardiology), CME of the National Heart Institute, SCAI (American Society for Cardiovascular Angiography and Interventions), C3 (Complex Cardiovascular Catheter Therapeutics, USA), ACCA(Acute Cardiovascular Care Association/ European Society of Cardiology) and the American Heart Association.

Our members are participants of the very active internet sites and face book cardiology communities that post daily cardiology updates and clinical cases will contribute to the scientific program. These **include ‘National Heart Association’, COMBATMI/ PCI’, EAZI (Egypt A-Z Intervention) of EglC (Egyptian Working Group of Interventional Cardiology), ‘NESMA’(Nile Egyptian Sudanese Medical Association- Cardio), ECA (Egyptian Cardiologists Abroad) and Cardiology Links**. We are proud that we have over 15,000 members in these sites from all over the world.

Previous meetings were included on the web site calendar of the SCAI, Acute Cardiac Care Association of the ESC(European Society of Cardiology) and the European PCI Association (EAPCI).

The course is directed to all levels of cardiologists, interventional cardiologists, internists and interventionists with escalating level. Your contribution as a faculty or attendee will definitely share in the success of this course.

COMBAT MI A to Z Training Courses

- 1** **EAZI (A-Z Intervention in Collaboration with the EgIC):**
The course this year will discuss the material and hardware used in coronary intervention as well as the tips & tricks in stenting & in primary PCI
- 2** **ICU course (A-Z Artificial Ventilation)**
principles of mechanical ventilation, Basic modes of mechanical ventilation, weaning from mechanical ventilation, non-invasive ventilation
- 3** **ECG & Arrhythmia (A to Z Arrhythmia Forum)**
Discussing several kinds of Arrhythmia with case-based review
- 4** **ECHO Workshop (A to Z ECHO Review)**
Tackles different cardiac legions with appropriate diagnosis and hands-on echo training
- 5** **Nurse & Technicians (A to Z)**
The cardiac nurse and technicians session displays problems and challenges in the ICU & Cath labs.
