Welcome Message

Dear Colleagues and distinguished guests,

The Department of Surgery, Faculty of Medicine for Girls Al-Azhar University always has the honor to invite you to the Annual Conference. This year, research in surgery 2015 will concentrate on research in surgery and its impact on practice in Egypt.

We all know the importance of research in our career as it leads every body to gain intellectual stimulation, express opinion, share ideas, exchange experience.

Research in surgery 2015 will be a great opportunity to discuss problems facing research in Egypt and possible solutions concentrating on how to improve basic writing skills.

As usual we have this year a remarkable gathering of national and international professors, where we are able to exchange expert knowledge.

The conference's activities will be addressed with a memorial lecture on the name of one of our professors, and arts of life lecture which will be on Egyptology.

We're certain all of our guests will enjoy the activities of the conference, fascinating nature and history of Egypt.

We hope everyone leaves with an abundance of memories and life lasting experiences.

We always rely on your sincerest of contributions towards our conferences.

Thank you.

Prof. Atef Allam
