1st Egyptian Parkinson and Movement Disorders Conference

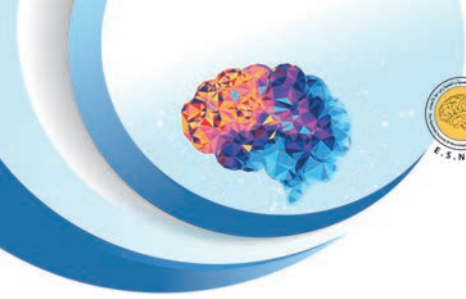

1st Egyptian Movement Disorders School

Organized by
**The Movement Disorders Chapter of Egyptian Society of
Neurology, Psychiatry and Neurosurgery**

In Collaboration with
**Pan Arab Union of Neurological Societies
International Parkinson and Movement Disorders Society**

27th – 29th July 2022

Intercontinental City Stars - Cairo Egypt.

Welcome Message

On the behalf of the Egyptian Society of Neurology, Psychiatry and Neurosurgery, we are delighted to welcome and extend to you a warm invitation to attend the First Egyptian Parkinson and Movement Disorders Conference and School, to be held on 27th – 29th July 2022 in Intercontinental City Stars – Cairo Egypt.

The 2022 conference is organized by the Movement Disorders chapter of Egyptian Society of Neurology, Psychiatry and Neurosurgery in collaboration of the international Parkinson's disease and Movement Disorders Society (MDS) and the Pan Arab Union of Neurological Societies (PAUNS).

The conference serves as both the premier venue for presenting fore-most research results in the area and as a forum for introducing and exploring new concepts.

It will present the state of the art in Parkinson's disease and other movement disorders research and management, reflecting the huge advances in this field in the past decade.

The meeting organizers have assembled a terrific slate of speakers and scientific sessions. Hands-on workshops by the most eminent scientists in movement disorders will surely make it an outstanding scientific experience.

We invite everyone to come ready to ask questions, participate and make new collaborations. I hope it will be an unforgettable meeting that will not be complete without your participation.
